Audit Narrative

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with the Agency PREA Coordinator Michael Gilmore. We coordinated the dates for the onsite audits at the facility.

During these conversations we outlined an overall audit schedule.

Posting Notice of the Audit:

I forwarded the audit postings to Michael Gilmore on July 5, 2018, he then forwarded the postings to the individual facility. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour, and during the resident and staff interviews. No staff nor residents contacted me.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

The Agency PREA Coordinator had previously provided me the Policies and Procedures related to the Prison Rape Elimination Act. The policies were forwarded to me on a flash drive, this included all Agency and Facility policies as well as documentation that all Agency and Facility Policies and Procedures were practiced on a daily basis. They also provided me a completed PRE-Audit Questionnaire. The Policies, Procedures and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted Pittsburgh Action Against Rape, who would provide victim advocacy for the facility. They knew of no issues at the facility.

Agency level interviews:

On August 15, 2018 I met with Carol A. Hertz, Executive Director, Carol L. Bender, Director of Program Development & Compliance, and Michael Gilmore, Compliance Coordinator/PREA Coordinator at the Administration/Main Office in Pittsburgh, PA. At this time, I conducted the agency level interviews, the PREA Coordinator interview was conducted during the three days of auditing. I also interviewed a representative from Donnelly and Boland Associates who provide Human Resources for the agency.

Onsite Audit Phase

Site Review:

The onsite audit started at 0700 hrs. Upon my arrival I conducted the interviews with the overnight staff members. Upon completion of the interviews Agency PREA Coordinator Michael Gilmore and I conducted the facility tour. During the tour I had the opportunity to view all areas of the facility, no areas were not toured. I interacted with both staff and residents, as well as observed the interaction between the staff and residents. I was able to verify the location of cameras throughout the facility, as well as the camera monitor

locations. While in the housing areas I observed the related PREA information, Audit Posting, and applicable policies and procedures which are accessible to all residents. These postings were further observed in common areas throughout the facility.

Upon completion of the facility tour the resident interviews were conducted. They were conducted in a vacant office, this provided privacy while conducting the interviews. I randomly selected the residents from the daily roster.

During the interview process several targeted categories of residents were not being housed at the facility.

I conducted the interviews with all residents in the same manner, a preamble to the interview was related to the resident explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No residents refused to speak with me. During the interviews I utilized a copy of the initial PREA information received by residents to visually stimulate the resident’s recollection of their initial intake process.

Upon completion of the resident interviews the staff interviews were conducted in the same area, these interviews were conducted on both days of the audit.

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Community Confinement.

Facility Characteristics

THE PROGRAM for Offenders, Inc. pioneered the development of community corrections in Allegheny County and has provided exemplary residential services for more than 30 years. THE PROGRAM has grown from a two-person storefront operation into an internationally recognized model program that deals expertly with the complex and troubled inmate population and, in particular, with the needs of non-violent incarcerated women.

THE PROGRAM has always worked effectively with local and federal jurisdictions, and has developed programs and facilities at the request of Allegheny County, PA to solve pressing problems of overcrowding and gaps in service delivery in the local criminal justice system.

THE PROGRAM for Offenders, Inc. ACTA (Allegheny County Treatment Alternative) provides the men of the Allegheny County Jail with therapeutic services aimed at giving them a second chance at life by providing them with the skills necessary to be successful in their recovery and as productive members of society. In order to reduce recidivism, the research has shown that it is more cost effective to treat the root of the problem and provide rehabilitation as opposed to incarceration as treatment costs far less than incarceration

The agency is a licensed, medically monitored long term residential facility (3C) and works in conjunction with psychiatrists, mental health professionals, medical doctors and other outside support agencies to provide our clients with comprehensive care in addition to in house case management services and drug and alcohol treatment.

ACTA (Allegheny County Treatment Alternative) is an all-male facility, located within a single building. The facility is secure and access is monitored by the Corrections Monitors. Upon being granted access the visitor would sign in, and be allowed through a second secure door.

The facility consists of two stories with a full basement. The main entrance is located on the first floor, this floor consists of the Corrections Monitors Office, Case Managers Office, and the Directors Office. A group room, kitchen and dining area are also located on the first floor.

The second floor contains offices and resident housing. The resident's rooms are multi-occupancy, the rooms have doors, and curtains on the windows that provide privacy. The bathroom on this floor has toilet stalls with closable doors, and shower curtains on the showers.

The basement consists of resident's rooms, a group area and a bathroom. The bathroom on this floor has toilet stalls with closable doors, and shower curtains on the showers.

The movement of the residents is restricted within the facility, with staff members making unannounced rounds throughout the facility.

EVIDENCE OF COMPLIANCE:

The Program for Offenders Document no. TPFO-20170-ACTA Subject: Prison Rape Elimination Act dictates the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency wide PREA Coordinator. During his interview he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application. I reviewed the Organizational Chart and found that the PREA Coordinator is in the upper-level of the administration.

The agency has also designated a PREA Compliance Manager at each of their facilities. During the interview with the Acting Facility Manager/PREA Compliance Manager they related that they have enough time to implement the PREA Standards at the facility.

During the interviews at the facility I was informed that the PREA Coordinator is always accessible to answer questions and provide advice on PREA related issues.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and residents.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment.

The staffing plans are developed at regularly held administration team meetings attended by the Executive Director, facility managers, the PREA Coordinator and other agency administrators. When staffing vacancies occur or staffing needs change, the issues are placed on the Administrative Meeting Agenda and are addressed by the administrative team.

The staffing plan has not been deviated from within the last 12 months. I confirmed during staff interviews that any posts would be filled with overtime.

The agency administrators review other incidents that have occurred at the facility, as well as discussing normal facility operation. They discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and resident interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

Overall the facility has the ability to conduct searches, pat searches, unclothed searches as dictated by policy. When conducting an unclothed search, the staff and resident are same sex, with two staff members present. The resident will unclothe down to their undergarments, during the resident interviews they described the search as very respectful.

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and resident interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The above policies outline procedures and practices that enables residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine housing unit checks. The policies further dictate that staff of the opposite gender announce their presence when entering a resident housing unit. These practices were confirmed during the staff and resident interviews as well as during the facility tour when I observed the announcements taking place.

The facility has bathrooms for the residents that have stall doors on the toilets, and shower curtains on all of the showers. All visitors are escorted while in the facility.

The facility does not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff, and medical interviews. When a transgender or intersex resident is placed at this facility, they would have been identified as such by the facility they were being transferred from.

The agency has trained staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex residents, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. This was confirmed by reviewing the provided training materials. I further verified this training during staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency and facility are substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with residents with disabilities, including residents who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to residents in these categories in the above policies. This plan outlines procedures for residents who are not only non-English speaking, but all who are enumerated in this standard. I confirmed the use of this plan during the staff and resident interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient. The facility would utilize Translate One for interpreter services.

The agency investigator is aware of the approved interpreters and confirmed during their interview that they would utilize these services.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed an application and hiring process, where these questions are asked. During the interviews with staff, and the representative from Donnelly and Boland Associates, I verified that this process is being utilized. I further verified the utilization by reviewing the application both online and in printed form. During the staff, volunteer and contractor interviews I verified they were asked these questions.

During the documentation review I found that this process is also being utilized in the promotion system throughout the agency. This was further confirmed through agency level interviews, and interviews of promoted personnel.

A criminal history check is completed upon hire and every 5 years. I was provided a copy of the Criminal Clearance spreadsheet; all criminal histories are within the 5-year period. These criminal histories are being conducted through the Pennsylvania State Police. The agency also conducts a Child Abuse Clearance.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

The agency has policies in place that directs the Administrative investigations for all allegations of sexual abuse or sexual harassment. Criminal investigations would be conducted by the Pittsburgh Police Department. Due to the diverse population the definition of Institutional Sexual Assault does not apply to some of the residents. This definition reads as follows:

PA Crimes Code Title 18 § 3124.2. Institutional sexual assault.

- (a) General rule.--Except as provided under subsection (a.1) and in sections 3121 (relating to rape), 3122.1 (relating to statutory sexual assault), 3123 (relating to involuntary deviate sexual intercourse), 3124.1 (relating to sexual assault) and 3125 (relating to aggravated indecent assault), a person who is an employee or agent of the Department of Corrections or a county correctional authority, youth development center, youth forestry camp, State or county juvenile detention facility, other licensed residential facility serving children and youth, or mental health or mental retardation facility or institution commits a felony of the third degree when that person engages in sexual intercourse, deviate sexual intercourse or indecent contact with an inmate, detainee, patient or resident.

If a resident or staff violated any other section of the PA Crimes Code, a criminal investigation would be conducted.

The facility would utilize a SANE at UPMC Hospitals and the Pittsburgh Action Against Rape for victim advocacy. I confirmed the utilization of this program through interviews and contact with the Pittsburgh Action Against Rape.

The protocols outlined in the policies are developmentally appropriate for youth, and exceed nationally accepted standards.

The aforementioned victim advocates are available to the victim during the forensic medical examination process and investigatory interviews and they provide emotional support, crisis intervention, information, and referrals. Although these services have not been utilized at this facility, I verified their availability through interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency has trained all volunteers and contractors who have contact with residents on their responsibilities under the agency's sexual abuse and sexual harassment prevention, detection, and response policies and procedures. This was confirmed during review of volunteer and contractor documentation at the facility.

The level and type of training provided to volunteers and contractors is based on the services they provide and level of contact they have with residents. At a minimum they are notified of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents. This was confirmed during the volunteer and contractor interviews.

The agency maintains all documentation confirming that volunteers and contractors understand the training they have received. This documentation is maintained at the facility level, this was confirmed during review of the volunteer and contractor acknowledgment forms.

Upon my arrival at the facility I was obligated to fill out the verification form, and received the information on the facilities Zero Tolerance Policy.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

During the intake process residents receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. This was confirmed during the resident and staff interviews. I further confirmed this by reviewing resident files and ensuring that the Zero Tolerance Acknowledgment Forms were in the files and signed by the residents.

The residents receive an in-depth orientation at which time the facility provided training on the Prison Rape Elimination Act. The training is provided by a staff member who verbally reviews the materials with the residents and answers any questions the residents may have. The staff further ensure any resident who is identified as disabled or limited English speaking understands the material. This was confirmed during the staff interviews and the resident interviews. This orientation takes place within seven days of arriving at the facility.

The facility provides resident education in formats accessible to all residents, this includes residents who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills. The facility provides materials to residents in Spanish, they also have designated staff who can provide interpretation of other languages.

The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the resident and staff interviews. During the onsite audit I interviewed the Case Managers who performs the resident education piece. She walked me through her process of not only completing the screening but also how she educates the resident. She provides this training in person utilizing both a video and verbal explanation of the zero-tolerance policy.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

All residents are assessed during the intake process, which is completed upon arrival at the facility. These instruments identify all areas of victimization enumerated in this standard. This was verified through interviews with staff and residents, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if a resident is transferred to another facility they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and residents.

The facility is reassessing all residents within 30 days of arrival, this reassessment is being conducted by the case manager, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

During the onsite audit I interviewed the Case Managers who performs the resident education piece. She walked me through her process of not only completing the screening but also how she

educates the resident. She provides this training in person utilizing both a video and verbal explanation of the zero-tolerance policy.

The facility would reassess a resident's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the resident's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Residents are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and resident interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools are only to staff who need the information.

The residents are constantly being reassessed by all staff at the facility. The staff members are accessible to the residents, and in this atmosphere work closely with the residents. This gives the staff the opportunity to observe the residents and ensure there is no change in their behavior or status. This was confirmed through interviews and watching the interaction between residents and the staff.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the facility substantially exceeds the requirements of this standard, and all provisions.

115.242 (c)

- When deciding whether to assign a transgender or intersex resident to a facility for male or female residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems (NOTE: if an agency by policy or practice assigns residents to a male or female facility on the basis of anatomy alone, that agency is not in compliance with this standard)? Yes No
- When making housing or other program assignments for transgender or intersex residents, does the agency consider on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether a placement would present management or security problems? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and resident interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each resident. This was confirmed during policy review, and staff and resident interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the residents health and safety, and whether the placement would present management or security problems. I also confirmed that the resident's own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that the transgender residents would be given the opportunity to shower separately from other residents.

I confirmed during interviews that placement and programming assignments for each transgender or intersex resident would be reassessed at least twice each year. This is also addressed in policy.

The agency nor facility place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during agency and facility level interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility provides several internal ways of privately reporting sexual abuse and sexual harassment, retaliation by other residents or staff. The staff and residents interviewed were all aware of internal reporting, such as reporting directly to a staff member or in written form through channels. The facility also provides telephone numbers for the Clinical Director and Facility Manager. Everyone was also aware of the toll-free number for the Pittsburgh Action Against Rape. All reports can be made anonymously.

All of these reports including those that need immediate attention, are filtered to the Facility Manager. During the resident interviews I asked about the level of comfort they had in reporting directly to a staff member. All of the interviewees related that they felt comfortable reporting to a staff member.

I was able to view the signage with the PREA reporting avenues in all of the housing areas, corridors, and common areas.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.
